

H&F Electrical Limited

Unit 3, Crossagalla Enterprise Centre, Ballysimon Road, Limerick V94TD81

Phone: 061 417 494

Established in 1989, H&F Electrical Contractors Ltd offer a wealth of experience and expertise across all market sectors in delivering electrical, instrumentation, data network and ancillary electrical systems. The company has become one of the foremost electrical, network communications and instrumentation contractors in Ireland while developing a prestigious client base. H&F Electrical have successfully completed electrical projects across the construction spectrum, from Data Centres, Manufacturing, Healthcare, Industrial, Pharmaceutical, Commercial, Government and Technology sectors. Our objective is to work in partnership with our clients to obtain mutually positive results. Total customer satisfaction is highest on our agenda and we are continually improving our standards of excellence to meet our customers needs and since our formation we have earned a reputation for quality workmanship and service. Our company operates to the strictest safety standards and ongoing training forms an integral part of our Safety Policy. H&F has earned a reputation for excellence, not only in performance, but in quality, safety and service. H&F Electricals' experience in HTMI specifications for hospitals has seen them become experts in this area and they have completed many projects for the HSE.
